

GARVIT SARAF

Business Operations · Data Analytics · AI-Enabled Product Building

Bengaluru, Karnataka | +91 97921 21111 | garvitsaraf28@gmail.com | linkedin.com/in/garvit-saraf

129% of a monthly sales target · Top 7 of ~30 reps · Built and shipped an **AI training platform** solo · **Automated** a team-wide revenue dashboard · Led **15+** events

PROFESSIONAL SUMMARY

Early-career professional at GrowthSchool / Outskill, an EdTech company, who pairs frontline sales performance with hands-on operations, data analytics, and product building. In my first three months I delivered 129% of a monthly sales target, independently designed and shipped an AI training platform, and automated the sales team's revenue reporting. I work end to end: I spot the problem, build the fix, and run it, backed by data. Comfortable owning projects solo and collaborating across sales, operations, HR, and leadership.

PROFESSIONAL EXPERIENCE

GrowthSchool / Outskill

Sales Associate

Bengaluru, India
Apr 2026 to Present

Product & Operations Initiatives

- Identified a recurring new-hire training bottleneck and independently designed and built an AI-powered sales training platform, solo, using Claude over a 15 to 20 day cycle. New hires run live voice mock calls against AI buyers that escalate from peer to director level (around 8 calls of 25 to 30 minutes each), with automatic pitch scoring, instant coaching, and knowledge-check quizzes. Now formally recognised and in use at the new 15 to 20 person Hyderabad office. Live at [outskill-garvit.vercel.app](#).
- Built a manager-facing dashboard tracking each trainee's mock-call volume, scores, strengths, gaps, and next steps, plus real-call recording and automatic follow-up reports once a hire goes live, removing the need for a senior to run training in person.
- Authored five onboarding decks used in live inductions for the Hyderabad launch: the Day-1 schedule, HR company induction, leave and attendance policy, POSH policy, and a company overview of programs and how the business operates.

Revenue & Data Analytics

- Delivered Rs. 9.7 lakh against a Rs. 7.5 lakh monthly target (129%), ranking in the top 7 of about 30 sales associates.
- Converted the sales team's manual Dial Nexa dialler tracking into an automated Google Sheets dashboard with individual-agent and team-level views, now used by the Senior Manager, Business Operations and the Associate Director, Growth.
- Built and maintain a daily revenue and funnel report comparing domestic, international, and overall performance (leads, workshop show-ups, conversions, units sold, revenue) against a rolling three to four month baseline, and supported the Hyderabad launch with HR.

EARLIER EXPERIENCE

- RSPL Limited**, Documentation Intern 2025
Built Power BI and Excel dashboards consolidating insurance policy data for senior management; coordinated across insurance, legal, and finance teams.
- Youth of India Foundation**, Research Intern 2024
Researched and analysed activist and NGO data to support national award selections.

LEADERSHIP

- Director, UDAAN Entrepreneurship Cell**, CHRIST University 2023 to 2026
Ran 15+ events including INNOWAVE 2025, a three-day international conference; onboarded speakers, secured sponsorships, led the documentation committee, and authored a nationally published feature in The Hindu.
- Departmental Representative, Centre for Social Action**, CHRIST University 2023 to 2025
Organised the CSA Alumni Meet and Silver Jubilee celebrations; supervised media, hospitality, and documentation for nationwide social-impact initiatives.

ENTREPRENEURIAL VENTURES

- Co-founder, NoteFi** 2025
Built a revenue-generating peer-to-peer academic resource platform with DRM-protected content; led go-to-market and early adoption.
- Founding Member, IdeaFi** 2025
Secured funding and strategic support from GradCapital and engaged multiple incubation centres.
