129% of a monthly target · Top 7 of ~30 reps · Built the company's **AI sales-training platform** (live in Hyderabad) · Automated the team's revenue analytics · Authored **5 onboarding decks**

PROFESSIONAL SUMMARY

Sales Associate at GrowthSchool / Outskill, an EdTech company, applying to move into the Programs Team. In my first full month on target I delivered 129% of quota, and alongside it I researched, designed, and built the company's first AI sales-training platform, automated the sales team's revenue reporting, and wrote the decks new hires are onboarded with. The work I am drawn to and do well is researching what needs to be taught, building the learning experience, and running the delivery, which is the core of what Programs does.

PROFESSIONAL EXPERIENCE

GrowthSchool / Outskill

Sales Associate

Bengaluru, India
Apr 2026 to Present

Learning Programs & Operations

- Noticed that every new sales hire was trained by senior reps and managers running mock calls by hand, and built the company's first AI sales-training platform to fix it, solo, using Claude over a 15 to 20 day cycle while carrying my own target. A hire runs live voice mock calls against AI buyers that escalate from peer to director level (around 8 calls per hire, 25 to 30 minutes each), with automatic pitch scoring, instant coaching after each attempt, and quizzes on programs and pricing. Live at [outskill-garvit.vercel.app](#).
- Gave managers a dashboard of each trainee's mock-call count, scores, strengths, gaps, and next steps, and added real-call recording with an automatic follow-up report once a hire goes live, so ramp no longer depends on a senior sitting in. Now formally recognised and in use at the new 15 to 20 person Hyderabad office.
- Built the onboarding decks used across the Hyderabad launch: the Day-1 schedule deck, the HR company induction, the leave and attendance policy, the POSH policy, and a programs deck explaining what the company does, how we sell, and how the teams work.

Data, Analytics & Revenue

- Converted the sales team's manual Dial Nexa dialler tracking into an automated Google Sheets dashboard with individual-agent and full-team views, now used by the Senior Manager, Business Operations and the Associate Director, Growth to see how each rep and the team are performing.
- Built and maintain a daily revenue and funnel report comparing domestic, international, and overall performance (leads, workshop show-ups, conversions, units sold, revenue) against a rolling three to four month baseline.
- Delivered Rs. 9.7 lakh against a Rs. 7.5 lakh monthly target (129%), ranking in the top 7 of about 30 associates, and supported the Hyderabad launch with HR, sending personalised welcome emails to 15 new joiners.

EARLIER EXPERIENCE

- RSPL Limited**, Documentation Intern 2025
Built Power BI and Excel dashboards consolidating insurance policy data for senior management; coordinated across insurance, legal, and finance teams.
- Youth of India Foundation**, Research Intern 2024
Researched and analysed activist and NGO data to support national award selections.

LEADERSHIP & VENTURES

- Director, UDAAN Entrepreneurship Cell**, CHRIST University 2023 to 2026
Ran 15+ events including INNOWAVE 2025, a three-day international conference; onboarded speakers, secured sponsorships, led the documentation committee, and authored a nationally published feature in The Hindu.
- Co-founder, NoteFi** 2025
Built a revenue-generating peer-to-peer academic resource platform with DRM-protected content; led go-to-market and early adoption.
- Founding Member, IdeaFi** 2025
Secured funding and strategic support from GradCapital and engaged multiple incubation centres.
